

JOB OPPORTUNITY

WORLDQUANT**Quantitative Research Scientist Required**

WorldQuant Investment Consulting (Beijing) Co., Ltd. is looking for 5 to 8 research scientists to create quantitative and computer-based models that seek to predict the movements of worldwide stock markets and financial markets. Candidates need not have prior knowledge in this field but must have a strong interest in learning about it. Our highly accomplished senior staff will provide the new hires with mentoring and guidance to help them succeed. Successful candidates will work in Beijing, China for 3 - 6 months, followed by possible relocation back to Thailand.

We offer outstanding career opportunities, which include:

- ❖ Exceptional financial rewards for full time researchers
- ❖ Friendly and collegial working environment
- ❖ Opportunity to be promoted to Assistant Vice President in 2 to 4 years
- ❖ Rare opportunity to learn from highly successful investment experts

Candidates for the research scientist position must:

- ❖ Possess or expect a BS degree from one of Thailand's best universities in a highly analytical field, such as:

Engineering
 Mathematics
 Physics
 Computer Science
 or any other field that is highly analytical and quantitative

- ❖ Ranked as top 10% in class for bachelor's degree
- ❖ Mathematics Olympiad medal is a plus
- ❖ Have a research scientist mindset, i.e., be a deep thinker, creative, persevering, smart, a self-starter, etc.
- ❖ Be competent in a programming language (C++ or C)
- ❖ Understand English
- ❖ Have a strong interest in learning about worldwide financial markets
- ❖ Have a strong work ethic
