

ENGINEERING MANAGEMENT (EM)

Curriculum Outline

The Engineering Management Program is designed for qualified individuals who plan to assume a management role in a technology-based, project-oriented environment within a manufacturing, service, or government organization. It offers an interdisciplinary course of study that combines the unique capabilities of industrial engineering, management, and information technology. As a result, the program provides a focus on technological leadership through the integration of people and technology.

Students are prepared for leadership roles in technologically oriented businesses through courses that present both the theoretical, and the practical aspects of managing complex engineering projects. The curriculum enables students to understand and manage the complex interaction among people, technology, finances, and the socio-political environment in which organizations operate. Upon completion of the program, graduates will be equipped with broad-based knowledge, and quantitative and qualitative analytical skill to succeed as managers, from project conceptualization through its implementation.

In order to gain practical experiences, fourth-year students are allowed to choose among three tracks of special studies. For more details on the academic options and special studies, please contact the Program Coordinator.

Structure and Components

1. General Basic Courses	36	Credits
1.1 Part I	21	Credits
1.1.1 Humanities	3	Credits
1.1.2 Social Sciences	3	Credits
1.1.3 Languages	9	Credits
1.1.4 Science and Mathematics	6	Credits
1.2 Part II	15	Credits
2. Core Courses	108	Credits
2.1 Compulsory Courses	102	Credits
2.2 Special Study	6	Credits
3. Free Elective Courses	6	Credits
Total	150	Credits

Details of the Curriculum

1. General Basic Courses	36	Credits
1.1 Part I	21	Credits
1.1.1 Humanities (1 course)	3	Credits
TU 110		
1.1.2 Social Sciences (1 course)	3	Credits
TU 120		
1.1.3 Languages (3 courses)	9	Credits
EL 171 EL 172 TU 140		
1.1.4 Science and Mathematics (2 courses)	6	Credits
ITS 100 TU 130		
1.2 Part II	15	Credits
EC 210 GTS 101 GTS 133		
GTS 202 GTS 231		
2. Core Courses	108	Credits
2.1 Compulsory Courses	102	Credits
2.1.1 Science and Mathematics (6 courses)	18	Credits
GTS 111 GTS 112 GTS 121 GTS 122		
GTS 212 GTS 213		
2.1.2 Fundamental of Engineering and Technology (6 courses)	17	Credits
GTS 303 MES 211 MTS 251 MTS 252

EM CURRICULUM: 150 CREDITS

First Year

Semester I Credits (lecture-practice-self study hrs)

EL	171	English Course II	3(3-0-6)
GTS	101	Skills Development for Technical Studies	3(3-1-5)
GTS	111	Mathematical Analysis for Management Science	3(3-1-5)
GTS	121	General Science I	3(3-1-5)
GTS	133	Environmental Studies	3(2-2-5)
ITS	100	Introduction to Computers and Programming	3(2-3-4)
MTS	252	Materials Science	3(3-0-6)

Sub-Total 21(19-8-36)

Semester II

EC	210	Introductory Economics	3(3-0-6)
EL	172	English Course III	3(3-0-6)
GTS	112	Linear Algebra	3(3-1-5)
GTS	122	General Science II	3(3-1-5)
ITS	101	Programming and Algorithms	3(3-0-6)
TU	130	Integrated Sciences and Technology	3(3-0-6)

Sub-Total 18(18-2-34)

Second Year

Semester I Credits (lecture-practice-self study hrs)

GTS	202	English Language Structures	3(3-1-5)
GTS	212	Calculus for Technologists I	3(3-0-6)
MES	211	Thermofluids	3(3-1-5)
MTS	211	Principles of Business	3(3-1-5)
MTS	251	Resource Economics	3(3-0-6)
TU	110	Integrated Humanities	3(3-0-6)
TU	140	Thai Studies	3(3-0-6)

Sub-Total 21(21-3-39)

Semester II

GTS	213	Calculus for Technologists II	3(3-1-5)
GTS	303	Communications in Business	2(2-1-3)
MTS	231	Statistical Methods for Managers	3(3-1-5)
MTS	253	Mechanics for Technologist	3(3-0-6)
MTS	254	Introduction to Management Science	3(3-1-5)
MTS	311	Fundamental Financial Accounting	3(3-1-5)
TU	120	Integrated Social Sciences	3(3-0-6)

Sub-Total 20(20-5-35)

Third Year

Semester I Credits (lecture-practice-self study hrs)

GTS	231	Law and Technology	3(3-1-5)
MTS	212	Principles of Management	3(3-1-5)
MTS	232	Production and Operations Management	3(3-0-6)
MTS	351	Management Systems Optimization	3(3-1-5)
MTS	381	Business Information Systems	3(3-0-6)
MTS	382	Database Systems and Applications	3(3-1-5)
MTS	411	Management Accounting	3(3-1-5)

Sub-Total 21(21-5-37)

Semester II

MTS	312	Principles of Marketing	3(3-1-5)
MTS	331	Economic Decision Analysis	3(3-0-6)
MTS	332	Quality Management	3(3-0-6)
MTS	333	Production and Inventory Management	3(3-0-6)
MTS	352	Work Design and Analysis	3(3-1-5)
MTS	412	Business Finance	3(3-1-5)
MTS	451	Project Management	3(3-0-6)

Sub-Total 21(21-3-39)

Summer

Select either Senior Project Track, Foreign Exchange Track, or Extended Management Training Track.

1. Senior Project Track and Foreign Exchange Track

MTS	309	Engineering Management Training	0(0-0-0)
-----	-----	---------------------------------	----------

Sub-Total 0(0-0-0)

2. Extended Management Training Track

XXX	xxx	Free Elective	3(x-x-x)
-----	-----	---------------	----------

Sub-Total 3(x-x-x)

Fourth Year

Semester I Credits (lecture-practice-self study hrs)

ITS	422	Introduction to Decision Support Systems	3(3-0-6)
MTS	334	Applications of Business Statistics	3(3-1-5)
MTS	403	Project Proposal Development	1(0-3-0)
MTS	431	Facility Location and Layout Planning	3(3-0-6)
MTS	453	Business Project Analysis	3(3-0-6)
MTS	481	Business Process Simulation	3(3-1-5)
XXX	xxx	Free Elective	3(x-x-x)

Sub-Total 19(x-x-x)

Semester II

1) Senior Project Track

MTS	404	Senior Project	6(0-18-0)
XXX	xxx	Free Elective	3(x-x-x)

Sub-Total 9(x-x-x)

2) Foreign Exchange Track

MTS	493	Special Study in EM I	3(3-0-6)
MTS	494	Special Study in EM II	3(3-0-6)
XXX	xxx	Free Elective	3(x-x-x)

Sub-Total 9(x-x-x)

3) Extended Management Training Track

MTS	304	Extended Engineering Management Training	6(0-40-0)
-----	-----	--	-----------

Sub-Total 6(0-40-0)
